International application No. PCT/EP 03/06846

D1: WO-A-9727173

D2: WO-A-9604228

D3: WO-A-9633160

D1 discloses insecticides that overlap the subject-matter of claims 1-8.

D2 discloses insecticides lacking the amino- or amido- aryl ending group which is present in the presently claimed compounds.

D3 discloses insecticides lacking the amino- or amido- aryl ending group which is present in the presently claimed compounds.

The subject-matter of claims 1-8 is not novel over D1.

Should the applicant succeeds in overcoming the lack of novelty it is not sure that the present application contains any patentable matter.

A skilled person wishing to develop alternative insecticides to the ones of D1 would have made or select the present compounds without the need to exercise any inventive step because of the very small structural change necessary to arrive to the presently claimed compounds.
